SUMMARY

Motivated Frontend Developer with practical experience in web development, UI design, and code troubleshooting. Eager to learn, grow, and make an impact by enhancing features based on user feedback. Seeking opportunities to contribute to innovative projects.

WORK EXPERIENCE

React Js Developer, Dukanlay Lahore, Pakistan **Apr 2024 - Jun 2024**

- Developed a responsive open banking platform using React.js and Material UI, prioritizing user experience and functionality.
- Fixed bugs and integrated APIs using Axios, managing environment variables for different builds.

Web Developer Intern, CodSoft Remote **Sep 2023 - Oct 2023**

- Gained hands-on experience in front-end web development using HTML, CSS, JavaScript, and Bootstrap.
- Contributed to various web projects, delivering tailored solutions for businesses and startups.

PROJECTS

Sood Charity Foundation **Aug 2024 - Sep 2024**

- Created a charity website using the MERN stack, featuring dynamic forms, user management, and donation capabilities.

Auctionwale **Jul 2024 - Aug 2024**

- Developed an auction website with real-time bidding features using Next.js for the frontend, Node.js and Express.js for the backend, and MongoDB as the database.

Vixo Link **May 2024 - Jul 2024**

- Developed Vixolink, a cloud-based open banking platform with seamless financial service integration and a React.js interface.
- Delivered a secure, API-optimized platform, enhancing user experience and workflow efficiency.
